

AI Adoption Gap Assessment & Quick Wins Guide

Find out if your business is ready for AI, spot quick wins, and uncover your #1 gap.

Presented by Neural Edge AI

Is Your Business Ready for AI?

Evaluate your AI readiness:

Understand your current position and potential for AI integration.

Find simple AI wins: Identify immediate, actionable AI applications to boost efficiency.

Identify your biggest operational gap:

Uncover key areas needing AI to optimize performance.

At the end, you'll know where you stand and the right next step for your business.

Step 1: Check Your Readiness

Consider the following aspects of your business to assess your AI readiness:

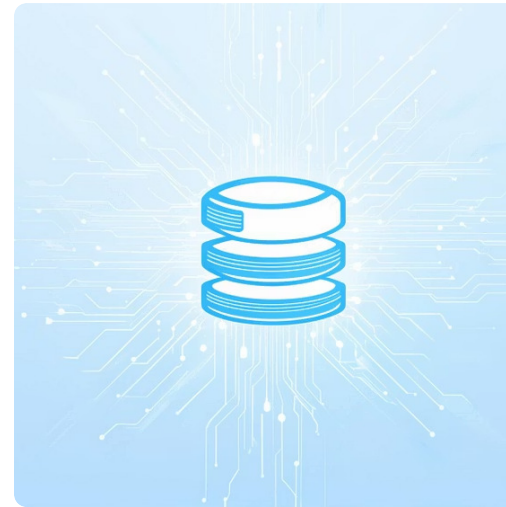

Core Systems in Place

Do you have essential systems like CRM, ERP, or structured spreadsheets?

Automated Processes

Are any of your current business processes already automated?

Clean and Accessible Data

Is your company's data well-organized, clean, and easily accessible?

AI & Data Skilled Team

Does your team possess relevant AI or data analysis skills?

Leadership Openness to Innovation

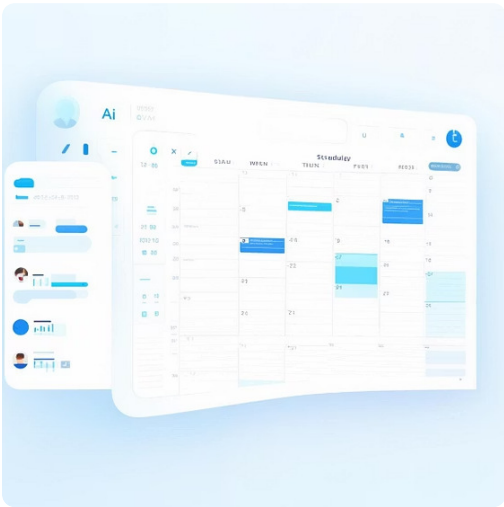

Is your leadership receptive to exploring and adopting new technologies?

Scoring Your Readiness:

- **Mostly Yes** = Your business is AI-Ready
- **Mixed** = You are On the Verge of AI adoption
- **Mostly No** = You need to build a strong Foundation for AI

Step 2: Choose Quick Wins

Pick 2–3 items to try this quarter:

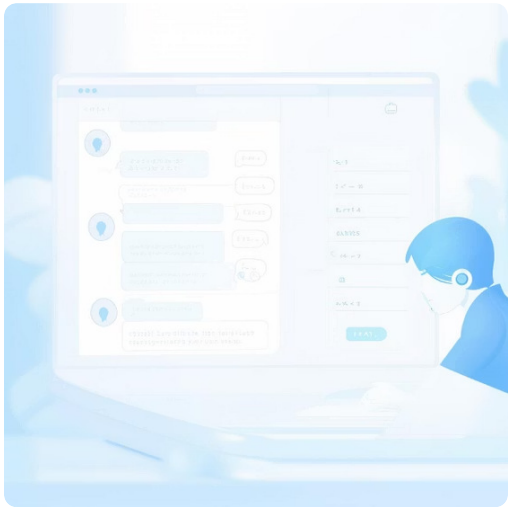

Automate Meeting Scheduling

Let AI handle the complexities of arranging your appointments.

AI Email Segmentation

Improve your outreach by segmenting emails with artificial intelligence.

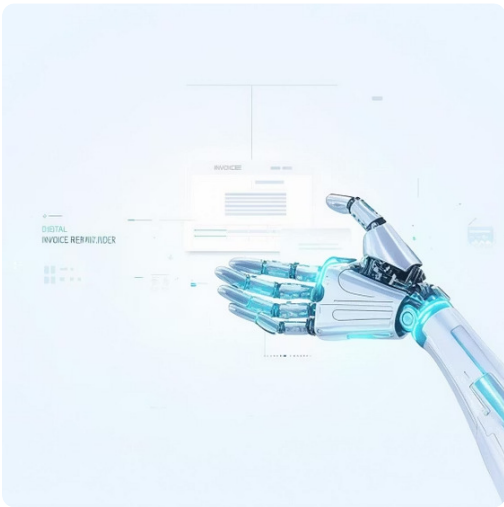

Deploy a Customer Support Chatbot

Provide instant assistance to your customers 24/7.

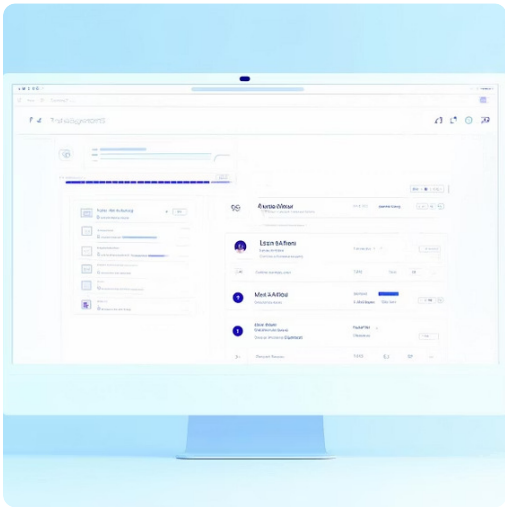

Auto-Generate Reports

Get quick insights with automated sales or marketing report creation.

Automate Invoice Reminders

Ensure timely payments with automated notifications for outstanding invoices.

Summarize Meetings & Assign Tasks

Efficiently capture key decisions and action items from your meetings.

Screen Resumes with AI

Streamline your hiring process by letting AI review applications.

Generate Social Media Content

Quickly produce engaging drafts for your social media platforms.

Build Basic Workflow Automations

Optimize repetitive tasks by implementing simple automated workflows.

Create Data Dashboards Automatically

Get instant visual insights into your data without manual effort.

Step 3: Pinpoint Your Biggest Gap

Compare how you work today with how you want it to work by conducting a simple SWOT analysis:

Strengths

What internal resources and capabilities give you an advantage?

Weaknesses

What internal challenges or limitations hinder your progress?

Opportunities

What external factors can you leverage for future growth?

Threats

What external challenges could negatively impact your business?

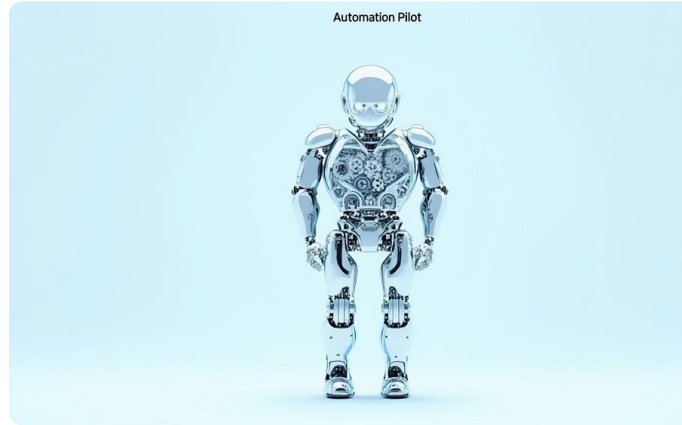

Based on this assessment, identify your #1 Business Challenge: _____

Your Next Step

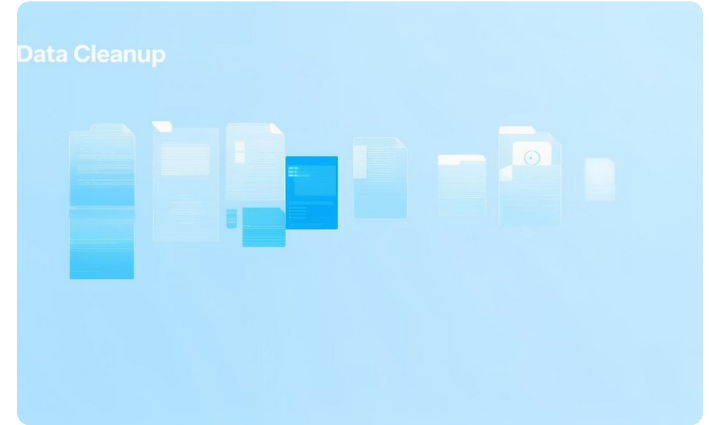

If AI-Ready:

Book an AI Clarity Sprint to map advanced opportunities.

If On the Verge:

Start with a focused automation pilot.

If Needs Foundation:

Begin with process and data cleanup.

Ready to close your biggest AI gap? Book your free AI Clarity Sprint today and get a personalized action plan.
